OPTIMUM SLEEP QUALITY

Only those who draw strength from resting can make their big dreams come true. That's why we've developed the technology that brings your night into tune with your day, guaranteeing you optimum recuperation whilst you sleep. Dream Big with the Philrouge dream technology.

For over 70 years, this dream technology has been at the heart of what we do as a specialist in sleep systems. Physiological measurements are combined with your rest type and the appropriate sleeping components to ultimately create your personal sleep system, providing you with the foundation to make big dreams come true in your life.

THE SOUPLESSE PRINCIPLE

Pocket spring mattresses always have been and always will be the latest in mattress technology. And that's no accident, because the unique point-by-point elasticity means that each mattress offers first-class comfort and support.

The springs react to the slightest changes in pressure. This sensitive dynamic guarantees a smooth distribution of pressure at all times.

Using springs also provides the best conditions for the perfect bed climate. The air is able to circulate freely thanks to the hundreds of hollow spaces within the mattress.

Combined with the adjustability of the spring suspension base, the result is the durable SOUPLESSE pocket spring core sleep system.

ACTIVE SUPPORT

The unique point-by-point elasticity comes firstly from the configuration of the barrel-shaped springs, varying wire thicknesses and higher-than-average number of turns. In combination with the adjustable spring suspension base the result is a sleep system adapted to your body shape and guaranteeing a smooth distribution of pressure.

OUTSTANDING TEMPERATURE REGULATION

The hollow spaces within the mattress ensure effective temperature regulation. The ventilation channels, Coonex foam technology and special cutting technique work together to create the best conditions for the perfect bed climate taking into account different requirements for warmth and firmness.

SOUPLESSE 18 and 22

What sets Souplesse pocket spring mattresses apart from the competition are their point-by-point elastic characteristics and outstanding temperature regulation. This guarantees optimum support and pressure relief on the various body zones whilst providing the perfect bed climate.

Relax Luxury Duo.

- Zipped topper with additional integrated soft foam.
- Two cover layers plus an additional top layer.
- Quilted with moisture regulating functional fibre.
- Both sides removable and washable.

- Zones:
- Seven zones, finely tuned to individual needs.
- Pocket springs:
- Tempered, fatigue-proof springs.
 - Seven turns and a range of wire thicknesses.
 - Barrel-shaped, sewn into fabric pockets.
- Foam:
- Coonex foam with natural components.
- Ventilation:
- Maximum ventilation in the mattress core.
 - Open-pored Coonex foam.
- Firmness levels:
- Soft, Medium, Dura, Dura-X.
 - The right level of firmness for every body shape.
- Core height:
- 18 and 22 cm.
- Mattress covers:
- Available in various finishes.
 - High quality corded edges.
 - Zips with precision teeth for easy changing.

Relax Wool.

- Double jersey quilted with tussah silk and pure new wool.
- Both sides removable for dry-cleaning.

Relax Wool Drell.

- Premium drill with cashmere.
- Quilted with tussah silk and pure new wool.
- Both sides removable for dry-cleaning.

NEW

SOUPLESSE SENSO

The Souplesse Senso takes the benefits of the tried and tested Souplesse pocket spring core mattress and adds to them with the special features of the pressure-relieving Senso materials. This improves the pressure distribution still further and provides even more finely-tuned relief to all body zones.

Relax Luxury Duo.

- Zipped topper with additional integrated soft foam.
- Two cover layers plus an additional top layer.
- Quilted with moisture regulating functional fibre.
- Both sides removable and washable.

Relax Clean.

- Double jersey quilted with moisture regulating functional fibre.
- Both sides removable and washable.

- Zones:
- Seven zones, finely tuned to individual needs.
- Pocket springs:
- Tempered, fatigue-proof springs.
 - Seven turns and a range of wire thicknesses.
 - Barrel-shaped, sewn into fabric pockets.
- Foam:
- Pressure-relieving Senso foam.
- Ventilation:
- Maximum ventilation in the mattress core.
 - Open-pored Senso foam with vertical ventilation channels.

- Both sides removable for dry-cleaning.

Relax Wool Drell.

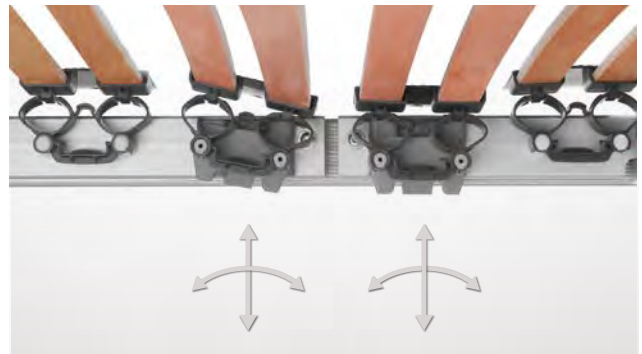

- Premium drill with cashmere.
- Quilted with tussah silk and pure new wool.
- Both sides removable for dry-cleaning.

MF 600

A functional sleep system requires a spring suspension bed base to complement the mattress. The highly flexible and fatigue-proof spring elements, active shoulder dip and individually adjustable seat and lumbar zones are the ideal complement to the ergonomic adaptability of the mattresses.

- Sturdy frame construction in beech with aluminium 3D-look finish.
- Sprung beech laths with 7 layers of varnish for higher-than-average durability and lasting elasticity.
- Free-floating and extremely flexible spring elements in fatigue-proof Hytrel plastic.
- Individually adjustable seat and lumbar zones.
- Active shoulder dip for ergonomic adaptation.
- Simple remote control operation.
- Total height 8.5 cm.

Models.

 K – Manual adjustment head.

 KF – Manual adjustment head, feet.

 2M – 2-motor adjustment upper body, legs.

 4M – 4-motor adjustment head, upper body, legs, feet.
